Repeat after us: *Skincare is not a chore!* Just like that super healthy green juice that turned out to be delicious, **Prepwork** is here to make your daily skincare duties **enjoyable**. We've created four products with special **superfood cocktails** to help your skin maintain that **coveted healthy-looking glow** while **safeguarding it from external stressors** that lead to early signs of ageing. Get ready to delight in every step of your new skincare routine!

EARLY MAINTENANCE & HEALTHY AGEING

Healthy ageing means that you have and are able to **sustain healthy-looking skin** by consistently utilising **effective skincare** along with **balanced nutrition**. Your skin's needs will vary as you age but the need for twice-daily, targeted care will always remain the same. Supporting healthy-looking skin must include **maintenance** and **protection** — critical steps to healthy ageing at every life stage.

So what is healthy-looking skin?

We've identified 6 key attributes of skin that **achieve an overall healthy appearance**:

- ✔ Radiance
- ✔ Hydration
- ✔ Smoothness
- ✔ Firmness
- ✔ Reduction in the appearance of dark spots
- ✔ Reduction in the look of fine lines and wrinkles

Early maintenance is key to healthy ageing.

Are you doing everything you can to care for your skin?

“The new Arbonne Prepwork line is suited for anyone who wants to take care of their skin. Prepwork helps prepare for the future. With superfood ingredients and a lightweight feel (even for younger or more acne-prone skin), this line provides exfoliation, hydration, and sun protection.”
